

## IT Services

IT Support made simple, effective and affordable.

### SMALL BUSINESS SOLUTIONS

**Boundary IT Services** have many years experience in the design, configuration and implementation of **Small Business Server** – the ideal platform for businesses up to 75 users.

We can offer advice and consultancy for new installations, as well as help with existing implementations and migrations from **SBS 2003**, **SBS 2008 & SBS 2011**

### IT SUPPORT

**Boundary IT Services** can offer help and advice on all aspects of your IT support. From installing a new network printer, all the way through to troubleshooting a failed Exchange Server or Active Directory Domain. We can assist with:

- **Windows Servers & Workstations**
- **Remote Access**
- **Backup Solutions**
- **Network Configuration & Security**
- **Website Design & Hosting**

### REMOTE ACCESS

User mobility is one of the fastest growing areas in IT today. **Boundary IT Services** can assist you with remote working for your mobile workforce from simple remote connections to check email all the way through to full blown VPN access.

### BACKUP SOLUTIONS

**Boundary IT Services** appreciate the value of your business data, and can advise you and help to implement robust, reliable backup systems that will:

- **Ensure your data is backed up daily**
- **Create online backups for fast file restores**
- **Enable you to do full bare-metal**
- **Implement best practice for storing data offsite**

We have many years experience installing and supporting **backup** technologies from some of the leading providers, and can help to ensure that your critical systems are protected.
